

# NEW TRASH CARTS CITY OF HORSESHOE BAY

## EXCITING NEWS!

Starting April 5, 2021, the City of Horseshoe Bay and Waste Management of Texas, Inc. (WM) are introducing new, 96-gallon trash carts. Waste Management will continue to service the City of Horseshoe Bay on the current schedule of weekly trash collection.

## NEW CARTS

Each resident will receive one NEW 96-gallon cart for items considered trash April 5 - April 9.

## OLD TRASH CONTAINERS

Residents should leave their old blue Republic Services carts out during the week of April 5th on their normal pick up day and not retrieve them after emptied. Residents should wait until a new WM green cart is delivered that week and use that cart only moving forward. Old, blue Republic Services carts will not be serviced if a resident has received a new, green WM cart. City code enforcement will suspend trash cart enforcement during that week.

We understand if you are not in Horseshoe Bay that week, whether a part-time resident or on vacation. Please do not worry. Waste Management and the City will make sure you are provided a new cart. Please contact the City at [greencarts@horseshoe-bay-tx.gov](mailto:greencarts@horseshoe-bay-tx.gov) after April 9 to schedule a replacement cart.
