

City of Horseshoe Bay Fire Department

Request for Outdoor Burning Permit

Name & Phone Number of Property Owner: _____
(This person will also be the individual responsible for control of this burn)

Name & Phone Number of Person Performing the Burn if Different than Owner: _____

911 Address: _____

Date of requested burn: _____

The Horseshoe Bay Fire Department will inspect the site within **3 working days** of the request. They will either approve or deny the request and advise the requesting party. This permit must be kept on-site by person performing burn and shown to any City Official requesting proof of approval.

Start time of burn: _____ End time of burn: _____

Burns must begin **no earlier** than one hour after sunrise and **must be out one hour** before sunset.

RULES FOR BURNING:

No burn will be left unattended. Burning shall not be commenced when surface winds are predicted to be less than 6 mph or greater than 23 mph during the burning period. A means of fire control and extinguishment must be readily available at all times (if a water hose is not available, 55 gallon drums of water and buckets may be allowed). Due to radiant heat, the burn must be no closer than 100 feet to structures. Burning must be conducted downwind of or at least 300 feet from any structure containing sensitive receptors. No burn shall endanger other property. No burning shall be allowed during burn bans. Anytime the burn or smoke from it creates a safety hazard or concern, it shall be extinguished by the responsible party. This permit does not exempt or excuse the responsible party from the consequences, damages, or injuries resulting from the burning and does not exempt or excuse anyone from complying with all other applicable laws, ordinances, regulations, and orders of governmental entities having jurisdiction, even though burning is otherwise conducted in compliance with this regulation.

Below, please provide a description of the location of the burn and materials involved (Electrical insulation, treated lumber, plastics, non-wood construction materials, heavy oils, asphaltic materials, explosive materials, chemical wastes, and items containing natural or synthetic rubber must not be burned.)

Fire Department Comments: _____

Violations of this permit including: hiding or adding illegal materials, leaving the fire unattended, burning without a burn permit, etc. are offenses subject to \$150/hour in fines for fire department extinguishment.
