

CITY OF HORSESHOE BAY

EMERGENCY WATER LEAK – ONGOING REPAIRS

The City of Horseshoe Bay Utilities Department is currently working on an emergency leak at the location of Green Leaf and Mountain Dew.

While crews are completing the repairs, areas of Horseshoe Bay South may experience low or no water pressure. Please contact the City at (830)598-8741 (Option 2) if you are experiencing a complete loss of water.

Due to complex issues with rock, drainage structures and underground electrical, repairs are expected to be completed later tonight, September 15. We apologize for the inconvenience and thank you for your cooperation and patience as we resolve this issue.
